

Screening *Saves Lives!*

FREE SKIN CANCER SCREENINGS

Thursday, September 27, 2018

5:00 – 6:00 PM

Floyd Valley Healthcare – East Entrance

ARRIVE EARLY ...

Screenings are first-come first-serve.

Skin cancer is the most common of all cancers and accounts for nearly half of all cancer cases in the US. Dr. Raymond Kuwahara, Tri-State Specialists, will be performing screenings, provide recommendations and have educational materials on-hand.

Have you seen any new moles or have any of your moles changed? Would you know if they did? Do you have a family history of melanoma? Early detection is the best way to treat skin cancer!
